## 2006 ISO & RESPONSIBLE CARE PROFILES

### CHEMICALS

**AIR PRODUCTS AND CHEMICALS, INC.**  
7201 Hamilton Boulevard  
Allentown, PA, USA 18195-1501  
Tel: 610-481-4911

E-mail: [info@airproducts.com](mailto:info@airproducts.com)  
WWW: [www.airproducts.com](http://www.airproducts.com)  
Air Products (NYSE:APD) serves customers in technology, energy, healthcare and industrial markets worldwide with a unique portfolio of products, services and solutions, providing atmospheric gases, process and specialty gases, performance materials and chemical intermediates. The company has built leading positions in key growth markets such as semiconductor materials, refinery hydrogen, home healthcare services, natural gas liquefaction, and advanced coatings and adhesives. Founded in 1940, Air Products is recognized for its innovative culture, operational excellence and commitment to safety and the environment. With annual revenues of \$8.1 billion and operations in over 30 countries, the company has ISO registrations at facilities throughout the U.S., and in Canada, South America, Europe and China. Air Products is also an active participant in Responsible Care® and similar initiatives in the countries in which we operate.

Creating lasting relationships built on understanding our customers' needs is Air Products' core strength. ISO 9000 is our model for quality assurance and a reflection of our commitment to our customers. For more detailed information regarding Air Products' ISO certifications, please visit [www.airproducts.com/AboutUs/corp\\_iso.htm](http://www.airproducts.com/AboutUs/corp_iso.htm).

At Air Products, Responsible Care® is a key driver behind our environmental, health and safety (EH&S) programs. It focuses our efforts on improving EH&S performance and responding to public concerns about chemical products and operations. To learn more about Air

Products' Responsible Care® efforts, please visit [www.airproducts.com/Responsibility/EHS/OurCommitment/care.htm](http://www.airproducts.com/Responsibility/EHS/OurCommitment/care.htm).

WWW: [www.aoc-resins.com](http://www.aoc-resins.com)  
Atryl, Altek, Hydropel, Vicast, Vibrin, Vipel Polyester and Vinylester resins, gel coats  
AOC is the largest unsaturated polyester resin manufacturer in North America and one of the five largest in the world. It manufactures polyester and vinyl resins for a variety of industries, including but not limited to: transportation, marine, tub/shower, continuous panel, cast polymer and solid surface, pipes and tanks, consumer products, utilizing both open and closed molding processes. Complementing resins in composite manufacturing are related product groups: gel coats, pigment dispersions and additives.

AOC has six strategically located North American plants to serve its customer base plus three in Europe and one in Asia. USA locations include Collierville, TN (with corporate headquarters), Kathleen, FL, Valparaiso, IN, and Perris, CA. In Canada, AOC's facility is located in Guelph, Ontario. These plants are ISO 2001-2000 certified and have AOC's proprietary process control technology to guarantee batch-to batch consistency. In Mexico City. Other supply facilities are located in Europe and Asia.

AOC has invested one of the industry's finest technical support team. These trained and certified technicians are available to help you maximize your through-put by identifying and solving processing problems. Additionally with AOC's extensive offering of low VOC resins and gel coats, many manufacturers have been able to meet new government requirements for reducing emissions.

**BASF CORPORATION**

Ludwigshafen, Germany D-67056  
Tel: 49-621-60-40145  
Fax: 49-621-60-42589  
WWW: [www.basf.com](http://www.basf.com)

As the world's leading chemical company, BASF's portfolio ranges from chemicals, plastics, performance products, agricultural products and fine chemicals to crude oil and natural gas. BASF's intelligent system solutions and high-value products help our customers to be more successful. BASF develops new technologies and uses them to open up additional market opportunities. We combine economic success with environmental protection and social responsibility, thus contributing to a better future. In 2005, BASF (NYSE:BF) had approximately 81,000 employees on five continents and posted global sales of more than \$50.4 billion.

In accordance with the Responsible Care, initiative, we work continuously to improve our performance in the areas of environmental protection, safety and health. We also support our customers and suppliers in these efforts.

BASF Corporation, headquartered in New Jersey, is the North American affiliate of BASF AG, Ludwigshafen, Germany. BASF employs about 10,000 people in North America and had sales of approximately \$11.3 billion in 2005. For more information about BASF's North American operations, or to sign up to receive news releases by e-mail, visit [www.basf.com/usa](http://www.basf.com/usa). Additional information about our global operations is available at [www.basf.com](http://www.basf.com).

# RC14001 or RCMS®?

RC14001 or RCMS®?

RC14001 or RCMS®?

## ABS Quality Evaluations

The American Chemistry Council (ACC) has given you a choice to comply with either technical specification by year-end 2005. ABS Quality Evaluations will provide third party certification for both. Let us help you choose which one.

Responsible Care Management System® (RCMS®) provides ACC members, Responsible Care Partners and licensees an effective framework for assessing needs, setting specific performance goals and sharing progress with the public. Certification is required by an independent, accredited auditing firm.

### RCMS®:

Certifies that a company is in compliance with the requirements of the RCMS®, based on a Plan-Do-Check-Act model with focus on specific activities addressing environmental, health, safety, security, stakeholder outreach and product stewardship.

### RC14001:

RC14001 allows companies to combine ACC's RCMS® requirements with those of the ISO 14001 environmental management systems standard into a single, integrated certification audit.

Companies seeking RC14001 certification must meet the requirements set by accreditation bodies governing the ISO process, in addition to the requirements of RCMS®.

### NEW:

RC14001 Technical Specification has been revised to meet the requirements of ISO 14001:2004.

For further information, contact ABS Quality Evaluations at 216.328.9220  
Email: [info-us-n@abs-qe.com](mailto:info-us-n@abs-qe.com) or visit [www.abs-qe.com](http://www.abs-qe.com)

### BOC

575 Mountain Avenue  
Murray Hill, NJ, USA 07974  
Tel: 908-771-1491  
WWW: [www.boc.com](http://www.boc.com)

Manufacture and distribution of gases for the industrial, medical, electronic, food and beverage markets.

More than 90 sites throughout the U.S. and Canada are certified to ISO 9001:2000 standard for the manufacture and distribution of industrial, medical, electronic, food, beverage and specialty gases. Production and supply includes liquid, gaseous, cylinder, bulk, pipeline and on-site. The scope of certification covers the production of atmospheric gases (oxygen, nitrogen and argon), carbon dioxide, helium and hydrogen, as well as the production of ultrahigh-purity electronic gas mixtures for etching and doping silicon wafer surfaces.

Included in the certification are BOC's headquarters, Murray Hill, NJ; Customer

Service Center, Lebanon, NJ; National Scheduling Center, Bethlehem, PA and IMSS Administration Center, Lisle, Illinois; and BOC's advanced Electronics Development Facility, which supplies integrated circuit manufacturers around the world with ultra high purity gases and gas mixtures. BOC's air separation plants in Kittery, Maine and Fostoria, Ohio have received ISO 14001 certification among the first industrial gases facilities in the nation to be certified under this environmental standard.

BOC supplies customers in a wide variety of markets, including chemicals and refineries, electronics, fabrication, food, glass, medical and metals.

BOC is the industrial gases business of The BOC Group, the worldwide industrial gases, vacuum technologies and distribution services company operating in more than 50 countries with total sales of \$7 billion. The BOC Group has a total of more than 350 sites that are ISO 9001 registered worldwide.

ISO 14001:1996

Design, Development, Manufacture, Storage and Distribution of Specialty Chemicals.

Croda Inc is a wholly owned subsidiary of Croda International Plc in the U.K. and offers one of the widest ranges of specialty chemicals and surfactants available. Croda is a leading supplier of raw materials to the Personal Care Industry in the U.S., as well as an established supplier of fabric softeners to the Household Industry and an important source of compendial ingredients and excipients for the Pharmaceutical Industry.

Croda adheres to an aggressive program of creative product development to provide its customers with raw materials that are mild, non-irritating, and naturally renewable, as well as functional. We are recognized as Industry leaders in the development of innovative quaternary ammonium compounds and emollient esters. We employ state-of-the-art technology in the production of these specialty ingredients and hold a number of patents on the two chemistries. Croda has fully-equipped skin care and hair care laboratories and a two-chair hair salon, where product validation, claim substantiation and half-head performance testing are done.

As part of Croda International's global-wide network, Croda also offers a full range of naturally derived proteins and amino acids, a line of botanicals and microwave extracts, and a French line of bio-active skin care ingredients.

Troy Corporation, a Responsible Care company, is ISO 9001:2000 and 14001:2004 certified.

Quality  
Troy manufacturing facilities are ISO 9001:2000 certified, indicating the company's dedication to quality and accuracy. Troy is committed to providing high quality preservatives, additives, and specialty materials, complemented by technical, regulatory, and sales support, to our customers worldwide. Troy products are held to high standards in manufacture, in a concerted effort to ensure that customers receive quality materials.

## Responsibility

Troy has achieved ISO 14001:2004 certification, a reflection of the company's environmentally sound procedures in its manufacturing facilities. Troy recognizes its environmental obligations and adheres to these established standards to the benefit of our customers, employees, and neighboring communities worldwide.

ABS Quality Evaluations, Inc. (ABS QE) is the world's first Certification Body to receive ANAB (Formerly ANSI-RAB) accreditation for certification of companies to the RC14001 Technical Specification.

ABS QE is an internationally accredited third-party registrar offering certification to a wide range of industries. ABS QE clients are provided with some of the most knowledgeable quality, health, safety, and environmental system auditors in their respective fields.

Our world-class teams of qualified auditors provide third-party certification for management systems, including: RCMS; RC14001; ISO 14001; ISO 9001:2000; ISO/TS16949; S9100; QS-9000; OHSAS 18001 and TL 9000.

The ABS QE audit philosophy is to provide a simple, straightforward certification process; auditors review what you are doing right to meet requirements; provide value during each audit; and keep you informed of the audit status during each step of the process.

## SRI QUALITY SYSTEM REGISTRAR

## PITTSBURGH HEADQUARTERS

105 Bradford Road

Suite 400  
Wexford, PA, USA 15090  
Tel: 724 934 9000  
Fax: 724 935 6825  
E-mail: [Info@SRIRegistrar.com](mailto:Info@SRIRegistrar.com)  
WWW: [www.SRIRegistrar.com](http://www.SRIRegistrar.com)  
SRI Quality System Registrar was founded in 1991 and has since become one of the leading registrars to the chemicals industry. Our auditors average more than 25 years of experience with backgrounds in chemicals, manufacturing, and all leading industry standards. SRI certification services provide worldwide recognition for:

RC14001  
ISO 14001  
OHSAS 18001 / Z-10  
ISO 9001  
ISO/TS 16949  
AS9100

SRI understands the investment you make in your management system. Our senior, experienced auditors and the SRI support team continue to deliver value at every event, giving you the return and recognition you deserve. Our "open book" style and "no surprises" approach to the certification process ensure a smooth and seamless experience.

SRI underpins its service with an industry-leading, web-based e-VENTS system, which electronically links SRI, its customers, and its auditors at every event. You benefit from immediate access to documentation and reports, schedules, and the SRI support team whenever you need it, wherever you need it.

There is a difference in registrars. Let SRI show you.

DNV Certification is part of Det Norske Veritas, a major international foundation that was established in 1864 with the objective of "safeguarding life, property and the environment." DNV recognizes that all management system certificates are not equal, and the fact is that DNV's certificates are among the most respected available. DNV is well equipped to satisfy the needs of the most demanding customers with our partnership approach.

\* With more than 52,000 management system certificates issued worldwide and more than 5,200 in North America, DNV is one of the world's top certification bodies for management system certification services.

\* In order to serve the local needs of the markets in which we operate, DNV is accredited by 22 of the world's most respected accreditation bodies.

\* Management system certification services are provided for:

ISO 9001:2000  
RC 14001  
RCMS(TM)  
AS 9110  
TE Supplement  
TL 9000  
AS9100  
AS9003  
AS9120  
ISO/TS 16949  
OHSAS 18001  
SA8000  
CE Mark  
ISO 14001  
ANSI/ESD S20.20

Nearly all companies are challenged with the task of improving their processes to remain competitive in a rapidly changing business environment. At DNV, we understand these challenges. For more than 140 years, DNV has assisted companies throughout the world in achieving the highest quality standards possible. Our staff of skilled professionals are qualified and prepared to assist you in achieving your business objectives.

DNV Certification has five U.S. offices, located in the Southeast; Midwest; Southwest; Western; and Northeast. For more information, visit our web site at [www.dnvcert.com/cw](http://www.dnvcert.com/cw).
